## Core Capabilities

- **Services**:
  - System Integration
  - Robotic Process Automation
  - Software Development
  - ERP Implementation
  - Digital Modernization
  - Cloud Migration
  - Managed Services
  - Staff Augmentation

- **Product Services:** Oracle Cloud, Microsoft, Splash BI, Informatica, Automic, Red Hat, UiPath, Pega, Maverick

- **Product Reseller:** Oracle, Splash BI, Swimage, Kofax, Maverick

## 6e Technologies

We are a systems integrator that helps organizations implement Enterprise Resource Planning (ERP) & automate the processes to improve efficiency. We use Robotics Process Automation (RPA) and Intelligent Automation (IA) to help agencies save money and increase efficiency.

We pride ourselves as customer partners and help them provide a unique competitive advantage during their digital modernization journey. Our client retention rate of 90%+ is a testimony of our deep partnership with our clients. Founded by a group of technologists, our mission is to support our clients in their IT needs so that they can focus on their mission. We enable resilient business applications in the fluid IT landscape by giving our clients the power to see beyond.

## Benefits of working with us

- Always exceeding client expectations
- No customer left behind
- Communication and transparency
- Always compliant with regulations such as NIST, FISMA by following best practices
- ISO 9001, 27001 certified and follow CMMI practices
- Fiscally responsible

## Past Performance Examples

### Princeton Plasma Physics Laboratory (PPPL)
Oracle Training and Testing: 6e Technologies provides instructional design services for comprehensive training programs to PPPL. We trained PPPL employees on Oracle Cloud and new business processes, using online and Train-the-Trainer sessions. We also created a testing strategy for Oracle Cloud We performed functionality, integration, regression, UAT testing. We also conducted automated testing for PPPL.

### Sandia National Laboratory (SNL)
Oracle Cloud Implementation: 6e Technologies provided system administration support to SNL for a seamless transition from PeopleSoft 9.2 to Oracle Human Capital Management (HCM) Cloud. We ensured a smooth migration by optimizing processes and maximizing the benefits of Oracle HCM Cloud, empowering SNL with advanced HR solutions.

### USDA Farm Production And Conservation (FPAC)
Data Visualization Capabilities: 6eTechnologies utilized Tableau, PowerBI, and OBIEE for visualization of models in 140+ dashboards for 50+ farm programs. We undertook system analysis and designed data models to do forecasting for multiple years in the future along with Program Management for USDA.

### Duke Energy
System Modernizing: 6eTechnologies consolidated existing legacy systems into one customer engagement platform to deliver the universal experience customers expect from the latest technology. We conducted Requirements, analysis, design, and solution implementation using Agile methodology. We also conducted User Acceptance Test and training. We created a dashboard for Duke Energy to keep track of customer engagement.

### Regional Transit Denver (RTD)
Last Mile Program: 6eTechnologies modernized Business Intelligence (BI) using Robotic Process Automation and captured the improvement in a dashboard. We also integrated 3rd party ride providers like Lyft and Uber for the Last Mile program and introduced Mobile Apps for a better customer experience.
